

CAREER DEVELOPMENT ADVISING

CAREER DEVELOPMENT OFFICE

Our model allows our Career Advisors to focus on specific academic programs, become familiar with the unique career-related concerns and common career paths among those groups, and create partnerships with faculty.

If you are not currently in communication with the Career Advisor who works with your discipline, please reach out to our team for collaboration in developing students' sense of readiness for life after LUC.

THE TEAM

SERVICES

- Career/role discernment
- Internship/job search coaching and strategy
- Online resources for search
- Classroom presentations ranging from self/career exploration and research, to opportunity searching

Our team specializes in facilitating and coaching students' exploration and research of career pathways, as well students' process of developing and communicating their professional identities.
