

# MODERN LANGUAGES AND LITERATURES

BA in French  
BA in Italian  
BA in Spanish

## OVERVIEW

The study of foreign languages provides students the language skills, linguistic insights, literary knowledge, and intercultural awareness that will enable them to become effective, humane citizens in an increasingly interconnected world. Foreign language study is inherently interdisciplinary, and today's language students broaden their experience through active involvement in numerous other University programs, myriad study abroad programs, and internships with local community organizations. The Department of Modern Languages and Literatures at Loyola University Chicago offers majors in French, Italian, and Spanish.

## CURRICULUM

Thirty credit hours in language, culture, and literature are required for the major. Students must take Composition and Conversation I and II (250 and 251), Main Currents of Literature I and II (270 and 271), and six courses at the 300-level. A senior portfolio is required of all majors for program assessment purposes. In addition to fulfilling major requirements to earn an undergraduate degree, students complete Loyola's Core Curriculum. Several minors are offered in language study, while others combine language, literature and culture. For a complete list of courses and minors offered, visit [LUC.edu/modernlang](http://LUC.edu/modernlang).

## CAREER OPPORTUNITIES

Graduates of Loyola's modern languages and literatures program may choose from many employment opportunities. Graduates have gotten jobs in a variety of industries including business, editing and publishing, education, law, medicine, social services, and translation and interpreting.

## RESOURCES

The Language Learning Resources Center (LLRC) supports the learning and teaching of languages, literatures, and cultures by students and faculty of the Department of Modern Languages & Literatures and the wider Loyola community. Located in Crown Center 208, it provides multimedia materials and equipment, personal assistance, a welcoming physical environment, and the online tools to enhance learning and teaching.
